

# ORTHODONTIC

MANAGEMENT OF SIMPLE TO MODERATE MALOCCLUSIONS

by  IFDE™

## AN ONLINE AND ONSITE COURSE FOR DENTISTS

This Level 1 course “blends” online learning that is done from home or work with onsite sessions that allow participants to learn and practice patient skills under the supervision of orthodontists recognized by the World Federation of Orthodontists (WFO).

## HOW CAN YOU BENEFIT FROM JOINING THE COURSE?

Learn how to manage orthodontic treatment of patients with simple to moderately complex malocclusions at an internationally acceptable level.

## WHAT TOPICS WILL WE COVER?

The online-onsite 24-month course will consist of six online modules and six onsite sessions. The course will cover:

- |                 |   |
|-----------------|---|
| <b>Module 1</b> | Orthodontic Diagnosis                                 |
| <b>Module 2</b> | Biomechanics  |
| <b>Module 3</b> | Interceptive Orthodontics                             |
| <b>Module 4</b> | Most Common Malocclusions                             |
| <b>Module 5</b> | Adult Orthodontics                                    |
| <b>Module 6</b> | Summary, final case presentation<br>final examination |

## WHEN DO THE ONLINE-ONSITE COURSE START?

The Level I course will begin in September 2017. The Vietnam course is limited to twenty (20) participants so please register early.

## WHEN DO THE ONLINE-ONLY MODULES START?

As some participants may not have the opportunity to attend the onsite training sessions, we offer online-only courses which will be available this Fall
